Forecast For Yorkshire & the Humber
Issued by Met Office Exeter
at 0400 on Thursday 01 Apr 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Drastically colder today compared to Wednesday.

Today:
Feeling markedly colder today, compared to Wednesday, especially along the North Sea coast with a chilly breeze. The highest temperatures will be inland, across western areas. Dry everywhere and often cloudy, but some sunny spells will occur, particularly this afternoon. Maximum temperature 10 deg C (50 deg F).

Tonight:
Dry with patchy cloud and clear spells. Breezy along the coast, with light winds elsewhere and becoming chilly in rural inland locations. Minimum temperature 1 deg C (34 deg F).

Friday:
Dry with often large amounts of cloud, but also some sunny spells, especially later in the afternoon. Feeling rather cold, particularly along the coast with a brisk breeze. Maximum temperature 11 deg C (52 deg F).

Outlook for Saturday to Monday:
Saturday often large amounts of cloud, but also sunny spells. Sunday frosty start then bright morning, before rain and hill snow arrive in the afternoon. Monday cold, windy, wintry showers.
